**The message of
Minister of Education**
"Read by the name of Allah"

We express our gratitude to Almighty Allah who bestowed upon us life and the ability to read and write and we send endless salutation to Hazrat Muhammad (PBUP) whose first divine message from Almighty Allah is "Read"!

As it is obvious, the year of 1397 was named as "Education Year". Therefore, Afghanistan education system will witness many fundamental quality changes in its different spheres. Teachers, students, curriculum/textbooks, schools, administrations and Parents' Councils are the six basic elements of Afghanistan education which play an important role in expanding and developing of education of a country. At such a fateful moment, the leadership and the entire family of Afghanistan Education is committed to create fundamental changes in the development and expansion of the current education system in Afghanistan.

Thus, reforming and developing of the educational curriculum is one the key priorities of Ministry of Education (MoE). In this regard, improvement in quality, content and the process of distributing of textbooks to schools, Madrasas, and all government and private educational centers is one of the topmost priorities of MoE. We believe that without having quality curriculum and textbooks, we will not be able to achieve the sustainable development goals with regard to education in our country.

To achieve the mentioned goals and an efficient education system, we kindly request our dedicated teachers and committed school administrators who are the educators of the future generation across the country to make endless efforts to support the active learning process using the textbooks and do their best to nurture the future generation to become informed and educated citizens who are critical thinkers and have the religious and national values. Teachers should begin their lessons every day with a sense of accountability and renewed commitment in order for their students to grow into civil, responsible and effective citizens, and serve as the architects of Afghanistan's future development.

Furthermore, I kindly request our motivated students who are the country's future valuable assets that they should not neglect the opportunities provided to them and respectfully utilize the teaching and learning process using the scientific curiosity and benefit immensely from the knowledge of their teachers.

Last but not least, I highly appreciate the endless efforts of educational experts, educationists, and technical partners in curriculum development that actively worked day and night to develop this textbook. I wish them success from Almighty Allah in their noble efforts.

I wish we achieve a well-developed education system of high standard and an Afghanistan with free, informed and prosperous citizens.

Dr. Mohammad Mirwais Balkhi

Introduction

Rationale for English Language

Studying English Language, as a very effective foreign language is crucial and essential for the people of Afghanistan because of many reasons:

- a. It can enable learners to communicate with other people and acquire needed information.
- b. It can help students and scholars to get knowledge about the daily life, culture, religion, politics, science and the technologies developed in English Language, and use the knowledge in the development of their country.
- c. It can help the students and scholars to learn about the contributions of great writers, thinkers, scientists, poets, inventors and statesmen in the progress of the people's of this language.
- d. It can help our learners understand international law, culture and consequently, improve international relations of Afghanistan with the nations of the world.
- e. It can help our people to promote their business and strengthen the economy of the country.
- f. It can help our religious scholars to communicate with the people of the world, comprehend their culture and the way of life, and disseminate the precious Islamic teachings and values. Consequently, promote mutual understanding and conviction.

Methods of the Course

“English for Afghanistan” is an English Course for the people of Afghanistan, to meet their needs. The course has been designed to promote English Language Learning through the following methods and techniques:

1. In the course, students are encouraged to talk first about themselves and their environments and then to broaden their horizons.
2. The course develops an awareness of the link between language, religion and culture.
3. The course provides students with the opportunity to acquire English language skills in an enjoyable and challenging way.
4. In the course, there is a consistent focus on learning English in order to develop practical and functional skills in which grammar is carefully considered.
5. The course provides enough time to students to master and acquire the lexicon and structures which are taught to them.
6. The skills of listening, speaking, reading and writing are developed gradually.
7. Maximum opportunities of interaction are provided for students.

8. Maximum use is made of pair and group activities where students undertake tasks collaboratively.
9. Moreover, revision and recycling are integrated into the course to facilitate and develop more learning skills.
10. This book of the course is consisting of (16) units. Each unit is divided into (4) forty-five minute lessons.

Reading

Read the paragraph and then answer the questions.

Look around you. Where are you now? There must be a clock around you. Why is that? It is because time is important. You build your routine around time. You wake up at a special time every morning and sleep at the same time every night. During the day, there are things you do that do not change such as having breakfast, lunch and dinner. These are our Islamic teachings to use time wisely; say our prayers on time and be punctual in our works and duties, to serve our people and make Allah (SWT) pleased. Time never stops and never goes back. Use it well, while you have it.

1. This paragraph is about:

Reading

What do you know about the food pyramid?

There are four main food groups; Bread, Cereals, Rice and Macaroni are the first group. They give us vitamin B and starch. We need four servings a day from this food group. Fruits and vegetables are in the second group. They give us vitamins A and C. Fruits also give us sugar which does not harm us like the one in candy. Milk, butter, cheese, and yogurt are in the third group. They give us vitamins and calcium. These are important to make our bones and teeth strong. We must have milk or other dairy products three times a day. Meat, fish, eggs, beans and nuts are also in this group. All these kinds of food help to build our muscles. We must have at least two servings of these. The fourth group includes fats, oils, and sugar. We must eat very little of these types of food. To be healthy it is important to eat different foods from each group.

Read the paragraph then answer the questions.

1. The main idea of the paragraph is:

History of Cheese

Cheese was first made more than 4,000 years ago by Asian people. Later cheese making spread to Europe. Cheese is a dairy product consisting of proteins and fat from milk, usually the milk of cows, buffalo, goats, or sheep.

Cheese is full of calcium which is necessary for your bones. However, cheese takes long time to digest. This is because cheese often has a lot of fat. Nowadays, low-fat cheese is made and sold at supermarkets. No matter where it comes from, you have to watch how much cheese you can eat every day.

1. Who made cheese for the first time?
2. When was it made?

Reading

Read the passage and answer the questions.

Do you like traveling? Would you like to see different types of weather? Then go to Africa! Africa is a large continent. Half of the continent is south of the equator and the other half is north of it. That is why the four seasons can be seen throughout this continent in the same month.

During July and August, the Tunisians, Egyptians and Moroccans enjoy the warm summer sun. However, for the South Africa, July and August mean winter. The weather there gets very cold, but it never snows.

Cameroon, Nigeria and Rwanda are around the equator. It is usually hot and humid there and it always rains. For this reason these countries have many forests and trees.

There are two deserts in Africa. They have no rain. Hot and dry winds blow in these deserts all the year round. If you plan a visit to Africa, make sure you see three seasons in one month.

Weather forecast

If you watch the weather forecast on TV, you probably know why my job is important. I can help you decide what to wear, or tell you if it is a good time to go to the park. Sometimes the information I give people about the weather can save lives. Pilots need to know what the weather will be in order to fly their planes safely. Some parts of the world have severe storms. The people need to know when they are coming so that they can be prepared. I use different tools to help me predict the weather. That is a radar map. It shows where it is raining.

Forest

Forests are an important part of our world; because they are home to thousands of plants and animals. Many of these plants release oxygen that we need in order to breathe. Some plants are important because; we use them to make medicines. My job is to study forests in different parts of the world and see what we need to do to keep them for future generations.

1. How can we protect jungles from destruction?
2. Why is weather forecasting important?
3. What does a weather forecaster tell us?
